

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (currently amended) A display including a radiation source and a layer associated with the radiation source, wherein the layer comprises a light guide ~~imbedded~~embedded with a matrix of fluorescent particles that emit visible light to illuminate the display in response to operation of the radiation source, and wherein the display comprises an electronic display, the radiation source being disposed adjacent to the layer and comprising a plurality of point-like light sources

2. (original) An electronic display according to claim 1, wherein the radiation source emits invisible light.

3. (original) An electronic display according to claim 2, wherein the radiation source emits ultra-violet light.

4. (original) An electronic display according to claim 1, wherein the layer contains a matrix of phosphor particles.

5. (original) An electronic display according to claim 1 wherein the layer contains a matrix of fluorescent particles.

6. (original) An electronic display according to claim 1, wherein the radiation source is planar.

7. (original) An electronic display according to claim 5, wherein the particles are uniformly distributed throughout the layer to provide a back light effect of uniform intensity.

8. (canceled)

9. (canceled)

10. (currently amended) ~~A electronic~~ An electronic display according to ~~claim 8~~ claim 1, wherein the particles are distributed in a non-uniform matrix throughout the layer to provide a back light effect of uniform intensity.

11. (currently amended) An electronic display according to claim 1, wherein the particles are of a single ~~colour~~ color.

12. (currently amended) An electronic display according to claim 1, wherein the particles are of different ~~couleurs~~colors.

13. (original) An electronic display according to claim 1, wherein a reflector is disposed on the layer.

14. (original) An electronic display according to claim 1, comprising a liquid crystal display.

15. (canceled)

16. (canceled)

17. (currently amended) The display according to claim 1, wherein the electronic display comprises a liquid crystal display ~~(LCD)~~ (LCD).

18. (canceled)
